

GXC

Cylindrical grinding module

Part Number: 7 90 10 312 44 3

The GXC cylindrical grinding module allows for perfect surfaces on tubular material. The conversion to a "Centerless" cylindrical grinding machine is done in just a few steps. Efficiency and flexibility are apparent in the design and construction.

- Cost effective grinding of tubes and shafts from 3/8–4 in (10–100 mm) diameter
- High operating speed combined with maximum surface quality
- Maximum flexibility from compatibility with the Slugger GI series using adapters
- Perfect processing using wet grinding in combination with cooling lubricant module Slugger GXW

GXC

Cylindrical grinding module

Part Number: 7 90 10 312 44 3

Technical data

Feed motor power	180 W
Feed speed	0–6.5 ft /min (0–2m/min)
Tube diameters	³ / ₄ –4 in (10 –100 mm)
Belt dimensions	3 × 79 in (75 × 2,000 mm)
Weight	106 lbs (48 kg)

Price includes:

1 guide rail nylon
1 guide rail brass
1 CEE plug (16 Amp)
