

# GXR

Radius grinding module

Part Number: 9 90 01 001 02 0

Grinding precise radii on tubes is a matter of the right machine: With the easily-mounted GXR module, the Slugger GX 75 2H belt grinding base unit quickly becomes a professional radius grinding machine.

- Precise coping of profiles and tubes from 5/8–3 in (16 – 75 mm) diameter
- Accurate and convenient operation
- Less burring and heat discoloration when processing stainless steel (with Slugger GX 75 2H at the lower speed)
- Maximum flexibility from compatibility with the Slugger GI series using adapters
